

SECTION I – GENERAL REQUIREMENTS

1. CONTRACTOR SAFETY PROGRAM:

The contractor shall conform to all applicable State and Federal Occupational Safety and Health Administration (OSHA) and National Fire Protection Association standards for the protection of USAF property and personnel entrusted by this contract. In addition, the contractor shall comply with the Air Force requirements either stated or referenced within this contract.

2. MISHAP REPORTING AND INVESTIGATION:

- a. The contractor shall report mishaps or incidents exceeding \$1,000 (material labor) to USAF property entrusted by this contract within one hour during normal day shift hours. All other accidents will be reported as soon as possible the next normal working day. Accidents/Mishaps shall be reported to WR-ALC/SEG through the CAO or the Project Officer (PO) appointed by the CAO. This report shall cover all available facts.
- b. If the United States Government investigates the mishap, the contractor shall cooperate fully and assist the United States Government personnel until the investigation is completed.

SECTION II – SPECIFIC REQUIREMENTS

1. SAFETY AND ACCIDENT PREVENTION:

- a. In performing work under this contract while on government property, the contractor shall:
 - 1) For those related activities not directly addressed by this contract, conform to the (current edition) specific Air Force Occupational Safety and Health Standards (AFOSH 127 and 161 Series), OSHA (Occupational Safety and Health Act), and National Fire Codes.
 - 2) Conform to the applicable safety rules prescribed by the ACO/PO.
- b. The contractor agrees to take all reasonable steps and precautions to prevent accidents and preserve the life and health of contractor and government personnel performing or, in any way, coming in contact with the performance of this contract on such premises.
- c. Smoking is authorized in designated areas only.

2. MOTOR VEHICLES:

The contractor shall comply with AFI 91-207 regarding the use of safety belts and other protective devices during vehicle operations. Personnel engaged in vehicle operations on the flight line shall be trained and certified in flight line procedures IAW WR-ALC-RAFBR 55-55. The contractor is responsible for scheduling this training through the ALC Safety Office/926-3105. Certification shall be on AF Form 483 and must be in the possession of the vehicle operator when operating on the flight line. The contractor is responsible for furnishing a trained and certified vehicle operator/escort for all infrequent vehicle operations such as material deliveries. The certified escort can be a passenger or operate a lead vehicle no further than three (3) vehicle lengths in front of the escorted vehicle. The contractor shall ensure that all sub-contractors comply with these requirements.

3. PROTOTYPE OPERATION:

If any prototype work is to be accomplished that involves AF people or aircraft, the contractor shall notify WR-ALC/SEG at 926-6271.
